WHO IS A FUTURE PRO?

A Future Pro is between 14 and 18 years old, who would not otherwise have the opportunity to play the game of golf. The foundation works with local schools and their guidance councillors to ensure kids who will truly benefit from the program apply.

HOW ARE THEY SUPPORTED?

Once accepted, students are provided with the full golf experience: junior membership to a golf club, instruction, and all the necessary equipment to play the game. A professional at each club is designated to provide guidance to each participant, while the foundation Executive Director stays in contact with the families and host clubs throughout the season.

WHAT IS THE DURATION OF THE FUTURE PROS PROGRAM?

The Future Pros Program accepts kids between the ages of 14 to 18 (grades 9 to 12) and will support them through to graduation, providing they participate in the game according to our criteria. This criteria is mutually agreed upon by the participant, their family members, and the foundation.

WHERE DOES A FUTURE PRO PLAY GOLF?

Future Pros receive junior memberships at their nearest golf club. Location is important to provide the kids the best possible access.
