HOW IT WORKS

Play on any TrackMan simulator- You can compete in the *Indoor Winter Series* tournaments on any TrackMan simulator running the latest software (min. version 9.1 of TrackMan Performance Studio).

Players are encouraged to play their tournament rounds at VTL Indoor Golf & Academy- VTL Golf has locations in Milton & Vaughan and will be blocking off time for players. There is no additional cost to play your round at VTL Golf. More information about registration and booking your tee time on page 9. Players who play their round at VTL Golf will not be required to record their round. More information about recording on page 7.

Three 2 person team scramble stroke play tournaments- Each event in the PGA of Ontario Winter Series consists of a single 18-hole 2 person team scramble stroke play round on a select TrackMan Virtual Golf course. We encourage you to maintain a consistent playing partner for all stops but you are able to change playing partners if necessary. Order of Merit will be adjusted accordingly.

This is a mixed field event- Men and Women will play from different tee boxes. Play is governed by the Rules of Golf and all players must abide by PGA of Ontario Tournament Policies. Using an alignment aid is not permitted.

Win additional payouts with the VTL Golf Eagles - Individual that records an eagle or better during any of the 3 stops will receive a ticket into a sidegame draw. No limit on number of tickets in the draw, make as many eagles as you can! There will be 3 tickets drawn following the last event and each winning ticket will receive \$350.00. **Only eligible to those who play at a VTL Facility.**

RECORDING GUIDE

Note: You should have at least 3.5 GB of space available on your device (based on roughly 30 minutes of playtime recorded on an iPhone 12, shooting standard HD 1080x1920, 30 fps)

THE BASICS

- Round recordings should be done in vertical orientation
- Position the camera behind the hitting area so that your entire body/swing and the screen can be seen.
- Keep the recording angle the same during the entire round
- Consider making two recordings: one for the front 9 and one for the back. This reduces file size and makes the upload process easier
- Do not pause the video — incomplete recordings may result in disqualification.

BEST PRACTICES

- Fix your phone/camera on a tripod — asking a friend to hold the camera is not recommended.
- Consider supplemental lighting if possible, we want to see your smiling face!!
- Set the simulator screen/projector brightness to max (ask your facility manager for help if necessary).
- Put your phone in flight mode /enable “do not disturb” so you don’t receive calls or notifications that may disrupt your recording.

EXTRA CREDIT

- Publish social media posts about your round on your own social media profiles and remember to be CREATIVE!
- Be sure to tag @pgaofontario & @vtlgolf and use the hashtag #PGAOWinterIndoorSeries and #PGAProud to be eligible to win the social media payouts from side games!

IF YOU ENCOUNTER TECHNICAL ISSUES DURING YOUR ROUND:

1. **Keep your camera running and finish your round.** The Rules Committee (milton@vtlgolf.com) can retroactively edit your scorecard to remove any additional strokes resulting from verifiable technical issues.
2. **Best practice is to select the "REHIT +1" option** when a glitch occurs with a stroke and VTL can adjust scores via TrackMan portal.
3. **Upload your video to the WETRANSFER link.** Make sure to provide information about the issue as well as timestamps so the Rules Committee (milton@vtlgolf.com) can assess your round and amend your scorecard if necessary.
