3.0	<p style="text-align: center;">First Aiders</p>  <p style="text-align: center;"><b>EVIDENCE BRIEF CLICK HERE</b></p>	<ul style="list-style-type: none"> <li>● Normal golf wear;</li> <li>● Available but optional nitrile gloves (for use in the event of potential contact);</li> <li>● Droplet and Contact Precautions - Surgical mask - Isolation gown - Eye protection (goggles or face shield);</li> <li>● Rescue Breather CPR barrier.</li> </ul>
4.0	<p style="text-align: center;">Workers who regularly conduct cleaning</p>  <p style="text-align: center;"><b>CLEANING AND DISINFECTION FOR COMMUNITY FACILITIES CLICK HERE</b></p>	<p>The risk of exposure to cleaning staff is inherently low. Cleaning staff should wear disposable gloves for all tasks in the cleaning process, including handling trash. Coveralls may be used depending on the task. In addition, the following precautions should be considered:</p> <ul style="list-style-type: none"> <li>○ Gloves, coveralls, aprons or work uniforms may be worn during cleaning and disinfecting;</li> <li>○ Additional PPE – such as non-medical masks or goggles might be required based on the cleaning or disinfectant products being used and whether there is a risk of splash;</li> <li>○ Gloves, coveralls, aprons or work uniforms (if worn) should be removed carefully to avoid contamination of the wearer and the surrounding area. Be sure to clean hands after removing potentially contaminated clothing;</li> <li>○ Reusable (washable) clothing should be laundered afterwards;</li> <li>○ Clean hands after handling dirty laundry;</li> <li>○ Gloves should be removed after cleaning a room or area occupied by any ill persons. Clean hands immediately after gloves are removed;</li> <li>○ Cleaning staff should immediately report breaches in PPE such as a tear in gloves or any other potential exposures to their supervisor;</li> <li>○ Cleaning staff and others should clean hands often, including immediately after removing gloves and after contact with an ill person, by washing hands with soap and water for 20 seconds. If soap and water are not available and hands are not visibly dirty, an alcohol-based hand sanitizer that contains at least 60% alcohol may be used. However, if hands are visibly dirty, always wash hands with soap and water.</li> </ul>

ACUTE Environmental and Safety Services incorporated in 1995 provides comprehensive health and safety training, on-site safety and consulting services for a broad range of clients representing most business sectors. ACUTE is recognized and highly regarded as a safety solutions leader, is based in Waterloo, Ontario and provides safety services for clients across Canada.
