

# Installation Specialist

## Job description

**Do you have a passion for technical project installations involving both hardware and IT-infrastructure? And do you thrive by working closely with customers around the world?**

We are looking for people who are detailed oriented, enjoy travel and have a basic understanding of construction. The desired candidate must be willing to work a demanding schedule with flexible hours as required to meet the project schedule and must exemplify a high level of professionalism in meeting the needs of and interfacing with the customer. The position will work as part of a crew and calls for a flexibility and willingness to perform various job duties and roles as needed.

### **Responsibilities include but are not limited to:**

- Exceptional quality installation of TrackMan Golf Simulators
- Establish best practices and innovative concepts related to product installations
- Work directly with Installation Operations Manager to understand and verify all project requirements and prerequisites prior to installation
- Establish positive relationships with clients and co-workers
- Provide simulator client support in accordance to our current policies and agreements
- Assist TrackMan Operations team with additional tasks as needed to help the TrackMan business
- Lead by example, demonstrating an attitude of safety, cost control, asset management, and professionalism to all in direct supervision

## Requirements

- Strong organization, planning and problem-solving skills
- Excellent interpersonal and communication skills, including the ability to establish and maintain effective working relationships with employees, customer representatives and private home-owners
- Good analytical and strategic thinking skills
- Ability to use all needed hand tools, securing, and terminating wire/cables
- Good understanding of basic AV and PC components
- Ability to read and understand electrical schematics and diagrams.
- Basic understanding of golf and/or golf swing
- Ability to read instructions, write reports, complete after action forms
- Passion, drive, excellent work ethic, and ability to self-start without direct supervision
- Ability to travel domestically and internationally; greater than 75% travel; potential night and weekend availability

- Must have a valid driver's license with a clean driving record.
- Minimum of a High School diploma or GED.

### **We offer:**

- A competitive compensation package.
- The chance to work with a dynamic and global team.
- The opportunity to make a major impact in a company on the leading edge of technology, data, and sports.

TrackMan Inc is a drug-free environment.

### **Join the home of a powerful sports brand and a one-of-a-kind technology**

Our proprietary technology is based on expert knowledge about radar, computer vision, data and software engineering. Our solutions are developed by specialists who endlessly explore and challenge new technical boundaries. TrackMan's blend of cutting-edge technology, sports, and continued growth makes our company an outstanding place to work. Our work culture is entrepreneurial, ambitious and rewarding as you get to collaborate with inspiring colleagues and interact with the leaders of golf, baseball, and football. Based on a unique brand reputation, we are proud of working in close partnership with the top athletes, organizations, and teams that rely on our technology to stay ahead of the race.

We are a Danish company founded, owned and managed since 2003 by three entrepreneurs with a strong passion for sports. Today, we have a global footprint with our headquarter located in Denmark (north of Copenhagen) and offices in New York, Scottsdale, Poland, Korea, and Japan. We are more than 320 people worldwide, half of which work in Denmark where our hardware and software products are developed, tested and manufactured.

### **Where innovation happens**

At TrackMan, we know that great people make great products. We believe that teams thrive and innovation sparks in an atmosphere where people are encouraged to think for themselves, where everybody's voices are heard, and where the best ideas prevail in the pursuit of an exceptional solution. This mix is what makes TrackMan an inspiring company – for our customers and our colleagues.

### **Share our Passion!**
