Cancer is a truly terrible disease and has touched my family just like it has many others. I have watched relatives suffer in their last days fighting the debilitating disease and as a result I have taken it upon myself to help out in whatever way possible to bring awareness to the disease. I had no idea that Prostate Cancer will affect approx. 1 in 6 males so we certainly need to spread the word. I'm sure I'm not unlike most males who hate their visits to the doctor's office but we must ensure that we get our regular checkups. It's amazing how growing a moustache can bring so much awareness to a cause!! While working at Granite Ridge I had numerous customers asking me on a daily basis about my "handlebars" and I was proud to say that as a CPGA member we were doing our part to help the Movember cause.
